

Historically? Perhaps she needs to read a history book. Inflation is at a 40-year high in this country. President Biden himself makes the false claim that inflation is worse elsewhere in the world than here.

Mr. President, the United States has worse inflation than Germany, France, Japan, Canada, India, Italy, Saudi Arabia, and the list goes on. What is this explanation?

The Biden administration blames the pandemic and Putin, but each of those countries has also had to deal with the same problems we have dealt with. Why is their inflation not like ours?

Mr. President, the answer is easy: Quit overheating the economy with government spending. Cut red tape and regulations hampering our industries. Let the American people keep more of their hard-earned money.

Conservatives once warned against our economy turning into Europe. Unless we change course, Europe will be worried about becoming us.

BIG OIL EARNS RECORD PROFITS WHILE FAMILIES STRUGGLE

(Ms. BROWN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Ohio. Madam Speaker, as President Biden pointed out last week, here is the cold, hard truth about gas prices: The last time oil was at its current price, the average price of gas at the pump was about \$4.25 per gallon. Today, gas prices are nearly 75 cents higher.

That difference, across just 3 months, is the result of historically high profit margins for refining oil into gasoline.

Oil and gas companies are announcing record profits while Putin's war in Ukraine is driving up prices at the pump. These companies are prioritizing stock buybacks while families are struggling to pay higher prices at the pump.

This is exactly why the House passed the Consumer Fuel Price Gouging Prevention Act last week. Yet not a single Republican voted with us to stop Big Oil from raking in record profits on the backs of hardworking Americans. Families are facing a crunch, and they deserve action.

CONGRATULATING ELI RUTH

(Mr. STAUBER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STAUBER. Madam Speaker, I rise today to congratulate and honor Eli Ruth, a fifth-grade student at Bay View Elementary of the Proctor School District who was named Minnesota's AAA School Safety Patroller of the Year.

Recently, I have been focused on how the United States is an exceptional country and how our people live out American exceptionalism every day.

When I see a student like Eli taking an opportunity to be a leader among his peers and working to ensure their safety, I see a young man who perfectly exemplifies American exceptionalism.

During his time as a safety patroller, Eli has come to know the students and community very well, and I am so glad to see that he has already become such an effective and caring leader at such a young age.

When I was his age, I was a school patrol officer myself at Piedmont Elementary. It brings me great joy to see that, decades later, this program is still encouraging and developing young leaders with a passion to serve.

Congratulations, again, to Eli Ruth on this amazing honor. I wish him nothing but success and happiness as he continues down his path of leadership.

CELEBRATING 50 YEARS OF PELL GRANTS

(Ms. CHU asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. CHU. Madam Speaker, today, I am so thrilled to join my colleagues around the country to celebrate the 50th anniversary of the Pell grant.

The Pell grant is essential to fulfilling our Nation's promise of higher education by ensuring low-income students have the same access and opportunities as their wealthy peers.

As a former college educator for over 20 years, I know firsthand how life-changing a college degree can be for a student. That kind of opportunity should not be reserved for only the richest amongst us.

During the 2021 academic year, nearly 850,000 students in my State of California received a Pell grant to help them access and complete a college degree. Nationwide, about 40 percent of all undergraduate students benefit from the Pell grant.

With most of these students coming from working families, it is clear: Pell grants help make college more affordable, enabling students to focus on their education and complete their degrees faster.

The Pell grant has spent the last 50 years helping students across the country access higher education, and it is now easier than ever for eligible students to apply.
